

Hans-Gerd Albertsen

After graduating at Technical University of Braunschweig Hans-Gerd Albertsen started as a Design Engineer at Philips Semiconductors. With several years of experience in the development of microcontrollers for different applications he joined the smartcard activity of Philips Semiconductors in 1996. Being involved in security evaluations since 1998 he took over the position as Manager Security Evaluation and Certification of the Philips Semiconductors Business Line Identification in 2004. In this position he was responsible for all security evaluations and certifications. And now also within NXP Semiconductors he remains responsible for evaluation and certification tasks comprising both Hardware and Software (including Crypto Libraries). In addition he is also active in international working groups like Eurosmart (Product & Systems Security Working Group) and ISCI WG1. By this he was e.g. involved in the (i) development of the Security IC Protection Profile (BSI-PP-0035-2007), (ii) development of documents and procedures to support composite evaluations, (iii) reviewing and commenting CC V3.x. and CC supporting documents.
