

Klaus Lüttich

Dr. Klaus Lüttich has been working at the University of Bremen after his diploma in computer science (2001) as research assistant in the area of formal methods and algebraic specifications. In 2007 he received his Dr.-Ing. (PhD) from the University of Bremen; his thesis "Development of Structured Ontologies in CASL" has been supervised by PD. Dr. Till Mossakowski and Prof. John Bateman, PhD.

He has been working as a product manager for bos KG since 2007 in the area of authentication and identity management. Since 1999, bos KG develops and implements e-government solutions. Its main focus is on secure data transport and digital signatures.
