

## **Wolfgang Peter**

Wolfgang Peter is the Director of TÜViT's 'Evaluation Body for IT Security', an IT Security Laboratory acting in various fields of IT security and accredited by several governmental or commercial organizations within different countries (e.g. Germany, Japan, Netherlands, UK, USA). As such he is in charge of all CC, ITSEC, and FIPS evaluations/validations performed within this laboratory.

Wolfgang holds a degree in mathematics and is working in the field of IT security since 1992. As a project manager he has directed numerous high assurance security evaluations, involving DBMS, ERP, Firewall, IDS, PKI, Smart Card, and VPN technology.
