

Wouter Slegers

Wouter Slegers has worked on all evaluation aspects of standardized evaluation methodologies (such as Common Criteria) and more free-form evaluations (such as certain national and payment scheme evaluations): as consultant to support customers in their (pre-)evaluation process, as evaluator to assess in a strict but fair manner whether the product meets the criteria and as deciding party based on external evaluation results. He has widely shared this knowledge as a trainer, presenter and consultant, striving to make the complex situations simple and actionable. Wouter, as CEO of Your Creative Solutions, provides services in translating policies to products and vice versa. Your Creative Solutions is currently working on tools making the analysis and argumentation of the security of a product stronger and simpler both on technical level and policy level.
