**Optimizing ADV/
AGD evidence for
CC 3.1**

Presentation Targets

Show ADV/AGD evidence possible optimisations areas and its advantages

- Show the difficulties with ADV/AGD evidence in general.
- Identify the possible fields in which ADV/AGD evidence could be optimized.
- Show how to write such documentation?
- Conclusions

We aim to provide you the latest insights **fresh at the 10th ICCC**. Unfortunately some of the supporting documentation is still in discussion so this means that this pre-copy is just a teaser. To receive the full version, please send me an email.

Summary (or: teaser)

The 10.000 feet view:

- CC 3.1 allows for serious optimisations on ADV/AGD evidence in the areas:
 - Content
 - Structure
